- b) it has instructed and throughout the duration of the personal data-processing services will instruct the data importer to process the personal data transferred only on the data exporter's behalf and in accordance with the applicable data protection laws and the Clauses;

- c) the data importer will provide sufficient guarantees in respect of the technical and organisational security measures specified in Annexure B to these Data Transfer Terms;

5 OBLIGATIONS OF THE DATA IMPORTER

The data importer agrees and warrants that:

- b) it has no reason to believe that the legislation applicable to it prevents it from fulfilling the instructions received from the data exporter and its obligations under the contract and that in the event of a change in this legislation which is likely to have a substantial adverse effect on the warranties and obligations provided by these Data Transfer Terms, it will promptly notify the change to the data exporter as soon as it is aware, in which case the data exporter is entitled to suspend the transfer of data and/or terminate the contract;
- c) it has implemented the technical and organisational security measures specified in Annexure B before processing the personal data transferred;

6 LIABILITY

6.1 The parties agree that any data subject who has suffered damage as a result of any breach of the obligations referred to in clause 3 or in clause 11 by any party or sub-processor is entitled to receive compensation from the data exporter for the damage suffered.

6.2 If a data subject is not able to bring a claim for compensation in accordance with clause 6.1 against the data exporter, arising out of a breach by the data importer or its sub-processor of any of their obligations referred to in clause 3 or in clause 11 because the data exporter no longer exists or has ceased to exist in law or has become insolvent, the data importer agrees that the data subject may issue a claim against the data importer as if it were the data exporter, unless any successor entity has assumed the entire legal obligations of the data exporter by contract or by operation of law, in which case, the data subject can enforce its rights against such entity.

The data importer may not rely on a breach by a sub-processor of its obligations in order to avoid its own liabilities.

6.3 If a data subject is not able to bring a claim against the data exporter or the data importer referred to in clauses 6.1 and 6.2, arising out of a breach by the sub-processor of any of their obligations referred to in clause 3 or in clause 11 because both the data exporter and the data importer no longer exist or have ceased to exist in law or have become insolvent, the sub-processor agrees that the data subject may issue a claim against the data sub-processor with regard to its own processing operations under these Data Transfer Terms as if it were the data exporter or the data importer, unless any successor entity has assumed the entire legal obligations of the data exporter or data importer by contract or by operation of law, in which case the data subject can enforce its rights against such entity. The liability of the sub-processor will be limited to its own processing operations under these Data Transfer Terms.

7 MEDIATION AND JURISDICTION

7.1 The data importer agrees that if the data subject invokes, third-party beneficiary rights against it and/or claims compensation for damages under these Data Transfer Terms, the data importer will accept the decision of the data subject to:

- a) refer the dispute to mediation, by an independent person or, where applicable, by the supervisory authority; and
- b) refer the dispute to the courts in the Member State in which the data exporter is established.

7.2 The parties agree that the choice made by the data subject will not prejudice its substantive or procedural rights to seek remedies in accordance with other provisions of national or international law.

8 COOPERATION WITH SUPERVISORY AUTHORITIES

8.1 The data exporter agrees to deposit a copy of these Data Transfer Terms with the supervisory authority if it so requests or, if such deposit is required under the applicable data protection laws.

8.2 The parties agree that the supervisory authority has the right to conduct an audit of the data importer and of any sub-processor, which has the same scope and is subject to the same conditions as would apply to an audit of the data exporter under the applicable data protection laws.

8.3 The data importer must promptly inform the data exporter regarding the existence of legislation applicable to it or any sub-processor preventing the conduct of an audit of the data importer or any sub-processor, pursuant to clause 8.2. In such a case the data exporter will be entitled to take the measures specified in clause 5(b).

9 GOVERNING LAWS

These Data Transfer Terms will be governed by the law of the Member State in which the data exporter is established.

10 VARIATION OF THE CONTRACT

The parties undertake not to vary or modify these Data Transfer Terms. This provision does not preclude the parties from adding clauses on business related issues where required as long as they do not contradict these Data Transfer Terms.

11 SUB-PROCESSING

11.1 The data importer must not subcontract any of its processing operations performed on behalf of the data exporter under these Data Transfer Terms without the prior written consent of the data exporter. Where the data importer subcontracts its obligations under these Data Transfer Terms, with the consent of the data exporter, it must only do so by way of a written agreement with the sub-processor which imposes the no less onerous obligations on the sub-processor as are imposed on the data importer under these Data Transfer Terms. Where the sub-processor fails to fulfil its data protection obligations under such written agreement the data importer will remain fully liable to the data exporter for the performance of the sub-processor's obligations under such agreement.

12 OBLIGATIONS AFTER TERMINATION OF DATA PROCESSING SERVICES

12.1 The parties agree that on the termination of the provision of data-processing services, the data importer and the sub-processor

must, at the selection of the data exporter, return all the data transferred and the copies thereof to the data exporter or destroy all the personal data and certify to the data exporter that it has done so, unless legislation imposed on the data importer prevents it from returning or destroying all or part of the data transferred. In that case, the data importer warrants that it will guarantee the confidentiality of the data transferred and will not actively process the data transferred further.

12.2 The data importer and the sub-processor warrant that on request of the data exporter and/or of the supervisory authority, it will submit its data-processing facilities for an audit of the measures referred to in clause 12.1.
